1. INTRODUCTION

These guidelines were developed by IBD Certifications and establish the criteria to which cosmetic products, personal hygiene and raw materials and foods must be fulfilled in order to obtain the IBD Natural Vegan Ingredients certification.

Additional information listed below related to IBD Vegan Natural Ingredients certification can be accessed at the IBD Library - Guidelines (available at: <https://www.ibd.com.br/guidelines-legislation/>):

RESOLUTION - RDC Nº 250, OF NOVEMBER 21, 2018

RESOLUTION - RDC Nº 432, OF NOVEMBER 4, 2020

The list of inputs and products certified by IBD can be accessed on the IBD website at Customers> IBD Products and Customers (available at <https://www.ibd.com.br/customers/?certificados=&produto=&cliente=&country=&state=>).

This 1st. Edition was developed to update and harmonize concepts and criteria of the Natural Ingredients Vegan seal with the products bearing this seal when marketed.

IBD Certifications' mission is to apply these guidelines to inspection and certification in accordance with ISO 17065 requirements.

2. JUSTIFICATIONS

The demand for guarantees for cosmetic products as well as food, free of substances derived from animals, is constantly increasing.

To this end, IBD created the seal that will guarantee not only through a documentary conference, but also through face-to-face audits the optional, non-inclusion of substances, raw materials of origin or derived from animals.

In certified products VEGAN NATURAL INGREDIENTS, in addition to the guarantee that they are all natural raw materials, these, also with an audit guarantee, will not be made of animal ingredients or even derived from animals.

3. WHAT ARE VEGAN PRODUCTS?

- 1) They are raw materials or final products generated or manufactured without substances from vertebrate or invertebrate animals including adjuvants, additives, coloring catalysts, sweeteners, stabilizers, emulsifiers, and that the latter have also not been generated with animal products.

- 2) They are raw materials or final products that were generated or manufactured without testing on animals of any kind.
- 3) Vegan certification does not exempt the company from complying with other pertinent laws, technical regulations and technical standards and making statements regarding the allergenic issue of products and the possible existence of allergenic substances.

4. LIST OF PERMITTED AND PROHIBITED PRODUCTS

LIST OF ALLOWED PRODUCTS

You must ensure that all raw materials used

- i) does not contain any ingredients of animal origin, such as meats and substances from parts of animals or their secretions;
- ii) does not contain additives, supplements or enzymes of animal origin;
- iii) has not been processed with technology assistants that are of animal origin

When necessary, submit a declaration in accordance with Attachment I

LIST OF PROHIBITED PRODUCTS

THEREFORE EXCLUDING, FOR EXAMPLE, SUBSTANCES AND:

Milk products:	lactic acid; casein; caseinates; milk cream; yogurts; powdered milk; lactalbumin; lactitol; lactoglobulin; lactose; lactosorro; butter; cheeses; whey proteins.
Derivatives of eggs:	albumin; powdered egg white; powdered egg yolk; globulin; lysozyme; ovalbumin; egg lecithin.
Honey Derivatives:	Apitoxin; Wax; Royal jelly; Propolis; Pollen.
Derivatives of animal origin: marine animals, cattle, insects, sheep, fish, pigs, birds or any animal species.	Silk Amino Acid; Collagen and elastin, leather, gelatin, bones, cartilage; Carmine, Cochineal, Carminic Acid; Shellac; Fats;

	Guanine; Lanolin; Keratin (obtained from the protein extracted from the mane, feathers and horns of some animals); Tallow or Animal Oils;
Hydrolyzed Proteins	(potentially can be of animal origin).

5. LABELING

According to the National Health Surveillance Agency (ANVISA), the packaging label is any inscription, caption and image or any descriptive or graphic material that is written, printed, printed, recorded or pasted on the packaging of a product and all elements must follow the regulations in force.

Therefore, all arts must follow the regulations in force and that each standard has specific requirements.

For further clarification regarding the colors of the seals, sizes, position and other graphic information, consult the IBD Labeling Guide (Guide for preparing and verifying labels for IBD certified cosmetic products), available at:

This seal can be applied to both cosmetics and food by IBD.

ANNEX 1. ANIMAL PRODUCT EXEMPTION STATEMENT

In order for the products to be certified to have their raw materials checked, please send the following declaration of conformity for each raw material in the formulation:

DECLARATION FOR VEGAN INGREDIENTS

IBD criteria:

The IBD criterion established for vegan cosmetics is that all raw materials and manufacturing processes satisfy the conditions of not having been tested on animals and not containing ingredients of animal origin.

Declaration:

The product (s) mentioned below were obtained or manufactured without the use of substances from vertebrate or invertebrate animals including adjuvants, additives, coloring catalysts, sweeteners, stabilizers, emulsifiers, and the latter were also not generated with animal products.

Commercial Name	FULL INCI name	Pharmaceutical data Name Address

I declare that I have no information that would suggest that this statement is inaccurate and I undertake to immediately inform the IBD certifier if this statement is withdrawn or modified, or if any information is revealed, impairing its accuracy.

The signatory declarant assumes responsibility for the accuracy of this declaration.

Supplier's country, location, date and signature ¹

Supplier company stamp (if appropriate)
