05 Inspection

05

The inspection seeks evidence of the information presented in the Organic, Natural and Vegan Report to certify compliance with the requirements of the guidelines, requesting additional information when necessary.

Necessary documentation: general and legal information of the production unit, formulation tables with the INCI name and supplier of each ingredient; technical data on ingredients (origin and method of obtaining, generally, but not restricted to: technical specification, processes for obtaining and producing, non-GMO declaration and declaration on animal testing); records of ingredient purchase, production, marketing and stock; graphic art of certified product labels.

06 Report analysis and Certification Decision

06

Granting of Certification

Issuance or renewal of the Certificate of Conformity, valid for 1 year from the date of issue.

In the presence of non-compliance

Corrective actions presented by the client. IBD evaluates and issues the certificate after corrective actions are approved.

Marketing of products

During the period of validity of the Certificate of Conformity, the customer can market their products and make claims about their certification using the Conformity Marks (seals), always respecting the applicable requirements.
